WELCOME TO AMSTERDAM!

Dear colleagues,

We feel proud and privileged to be allowed to organize the 35th EFI Conference in 2022 in the Netherlands with the theme 'Tolerance, Acceptance and Permissiveness'. This conference will be organized by the HLA Working Party, the Netherlands (HLA-WN) and is additionally supported by various Dutch researchers in the HLA community, who are all part of the Local Organizing Committee. In close collaboration with the EFI Scientific Committee and Educational Committee, we are establishing an interesting program around this theme.

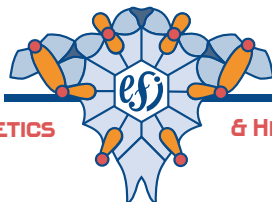

The Netherlands is known for its tulips, wind mills and polder landscapes. But even more important, the Netherlands is characterized by a long history of tolerance, acceptance and permissibility. In the seventeenth century, the Dutch Golden Age, the Dutch Republic was the only country in which freedom of conscience was enshrined in the law, resulting in the influx of refugees of all possible religious backgrounds. Moreover, the Republic was the established shelter for those who found the opportunity here to publish works that would elsewhere be banned immediately. Even today, the Netherlands is known as one of the most permissive societies in the Western world.

Tolerance, acceptance and permissiveness are also key concepts in histocompatibility. For H&I professionals they are the ultimate aims to be achieved by combining basic and translational research, diagnostics, and clinical evaluations. Being connected to concepts of tolerance, acceptance and permissiveness for almost 400 years, the Netherlands in general, and Amsterdam in particular, offer the perfect environment for the 35th EFI Conference in 2022.

Amsterdam is listed among the world's top ten conference destinations. The city has an excellent track record of hosting prestigious international conferences. In the very heart of the city, we have selected a unique conference location which will boost the conference experience.

We are looking forward to meeting you again!

Sebastiaan Heidt and Eric Spierings,
Co-chairs for the 35th EFI Conference

CONFERENCE VENUE

Beurs van Berlage

Damrak 243

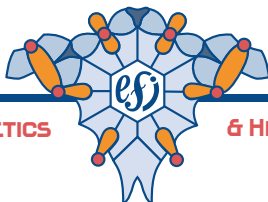

1012 ZJ Amsterdam, the Netherlands

www.beursvanberlage.com

The Beurs van Berlage breathes history and character. It was already a bustling trading place in 1903. Amsterdam was very prosperous at the end of the nineteenth century. Trade flourished and more and more people decided to live in the city. The Government of Amsterdam therefore decided in 1896 to build a new stock exchange. The designer was architect and urban planner Hendrik Petrus Berlage. Berlage, however, was a fervent socialist and did not believe that the stock exchange would last. He solved this smartly and creatively. Inspired by the Italian Palazzo Pubblico, Berlage decided to design the new stock exchange building in such a way that in the future, after the expected victory of socialism, it could serve as a grand and impressive community house. A true people's palace!

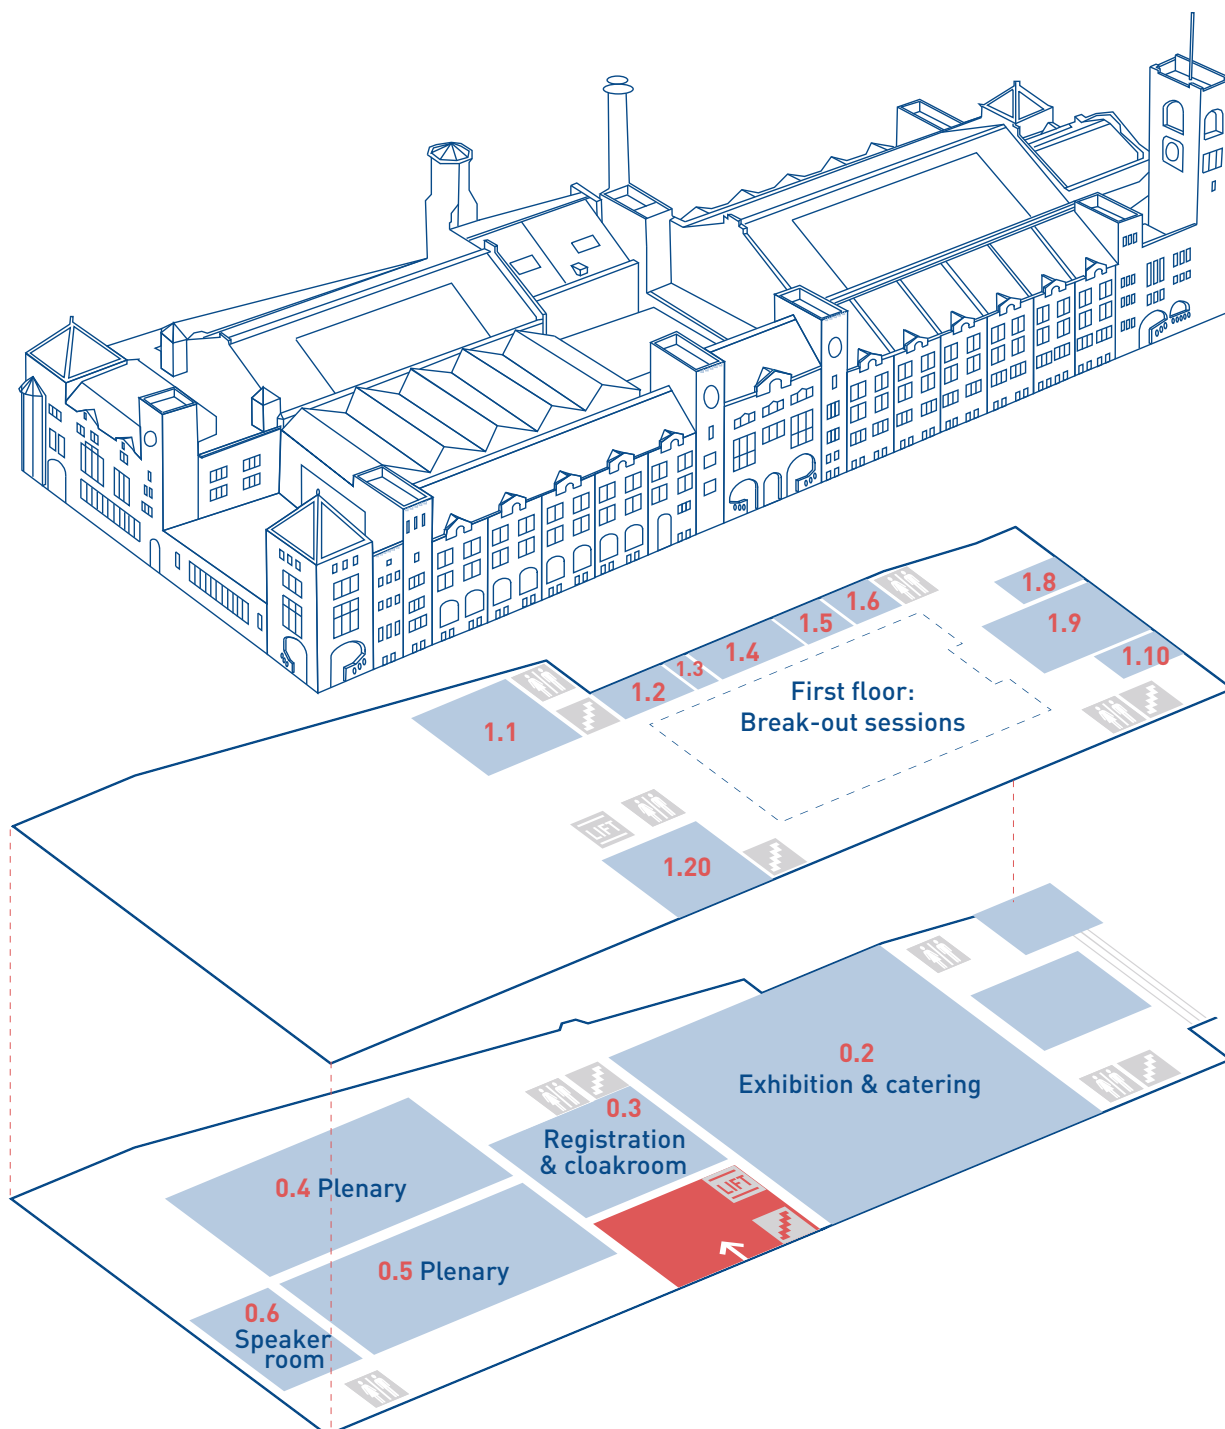

Today it's a one in a million conference location in the warm heart of Amsterdam. De Beurs van Berlage is located in the center of Amsterdam on Damrak, Oude Brugsteeg and Beursstraat, directly opposite the central station, a short distance from highways and Schiphol Airport.

PROGRAM

WHAT TOPICS WILL BE COVERED?

The topics of the plenary sessions as well as the education sessions will be tightly linked to the Conference motto of "Tolerance, Acceptance and Permissiveness". The local scientific and education committees have identified world renowned speakers that will cover these key concepts in histocompatibility in various sessions. The main themes of the plenary sessions are:

- Tolerance, acceptance and permissiveness in solid organ transplantation
- Future perspectives in hematopoietic stem cell transplantation
- Tissue specific tolerance and immunity
- Bioinformatics, big data and systems biology

With these themes, we are confident to serve the whole of the H&I community that will participate in the EFI 2022 congress.

WHAT ELSE WILL BE HAPPENING AT EFI 2022?

In addition to the technical program there will be social functions that will encourage and foster networking opportunities.

SPONSORSHIP AND EXHIBITION OPPORTUNITIES

The Local Organizing Committee of the 35th European Federation for Immunogenetics Conference extends a warm invitation to all interested companies – to demonstrate their support for Immunogenetics & Histocompatibility by participating in one or more of the options outlined in this document.

WHY BECOME A SPONSOR / EXHIBITOR OF EFI 2022?

Industry partnership is at the heart of this event

Our sponsorship packages have been carefully shaped to meet the commercial imperative of our industry partners. We provide a range of opportunities for name exposure, branding and networking.

Involvement in EFI 2022 is all about building brand awareness

Our exhibition hall for sponsors is positioned to capture maximum customer engagement during the tea & coffee breaks, lunches and poster viewing sessions. This is why the exhibition and the scheduled breaks (coffee & tea and lunches) are in the same area. There are a range of opportunities to suit every budget, keeping your brand front of mind with delegates. Sponsors will also benefit from enhanced brand exposure in web and printed collateral, before, during and after the event.

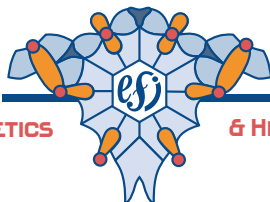

Meet new contacts and strengthen key relationships

Maximizing networking opportunities for our delegates is an important priority. We work hard to provide places for formal and informal networking. Dedicated meeting spaces include an integrated exhibition hall for optimal exposure and private meeting rooms for dedicated meetings.

Sponsorship and Exhibition packages have been designed to provide your company an opportunity to support the 35th European Immunogenetics & Histocompatibility Conference.
