

About us

For more than 15 years, GenDx is a global leader in molecular diagnostics for matching stem cell transplant patients with donors, and monitor success of transplantation. We combine our renowned software and reagents for high resolution HLA typing by Next Generation Sequencing and Chimerism monitoring with excellent customer support and education.

We work closely with our partners and clients and share knowledge to advance the field of transplant typing and monitoring. With a highly educated and motivated team of almost 100 people and 40 distributors we contribute worldwide to the quality of life of transplant patients.

Our products

GenDx develops and offers a comprehensive line of reagents and services, analysis software, and education.

COMING SOON

NGS-TURBO®

High-Resolution HLA typing within 4h

With a turnaround time of less than four hours and an easy and robust workflow, NGS-Turbo® is designed for HLA typing in situations where time is a critical factor. In combination with Oxford Nanopore Technology sequencing devices, accurate sequencing-based HLA typing results are generated at incredible speed.

Board of Directors

Per October 4, 2022, the Paris, France-based Eurobio Scientific acquired all outstanding shares of GenDx. The board of director currently consists of Wietse Mulder PhD (executive director), Denis Fortier and Hervé Duchesne de Lamotte (non-executive directors).

Our Mission & Vision

Improve the quality of life and survival of transplant patients & advance the field of transplantation by offering excellent molecular diagnostic tools and sharing knowledge.
