SOCIÉTÉ FRANCOPHONE D'HISTOCOMPATIBILITÉ ET D'IMMUNOGÉNÉTIQUE  
APRIL 26TH 2023 • CITÉ DES CONGRÈS DE NANTES

The SFHI is a learned and professional society bringing together French-speaking HLA laboratories. It ensures the development and dissemination of knowledge, and medical and scientific applications in Histocompatibility and Immunogenetics, in particular for a better understanding of the compatibility between donor and recipient in organ transplantation and hematopoietic stem cell transplantation.

The background of the slide is a photograph of a lecture hall. On the left, there are tall wooden bookshelves filled with books. In the center and right, rows of yellow plastic chairs are arranged, with several people seated, facing towards the front of the room. The ceiling has a grid of recessed lighting. The right side of the slide is overlaid with a solid blue rectangle containing white text.

# SFHI PROGRAM

## **QUANTIFICATION OF ALLELIC EXPRESSION OF HLA GENES : MÉTHODS, RÉGULATION AND IMPLICATION IN ALLOGRAFT**

Jean Villard  
13:30 - 14:15 • Auditorium 450
