

Join us for our Werfen sponsored symposia

Session 1

Frontiers in Transplantation: Exploring Cutting-Edge Innovations and Future Directions

Pre-transplant non-HLA antibodies: Not rare at all, just rarely considered until they interfere

Marko Lilic, University of Mostar, Bosnia & Herzegovina

Nanotyping for Next-Generation Diagnostics: Experiences and Challenges

Andri Papaloizou, Karaiskakio Foundation, Cyprus

Date/Time: Thursday 15 May, 1:00-2:00pm

Location: 1st Floor, Panorama Hall,
Prague Congress Centre

Session 2

Pioneering Progress in Transplant Testing: Unveiling Innovative Insights and Advances

Pirche and Snow in prediction of de novo DSA

Andrej Čereš, University Hospital Martin, Slovakia

Memory B cell-derived HLA antibodies: The Basel experience

Caroline Wehmeier & Gideon Hönger, University Hospital Basel, Switzerland

From Slow to Lightning: HLA Typing Using NanoTYPE for High Throughput Laboratories and Registries

Greg Werner, VP Product Innovation, Werfen

Date/Time: Thursday 15 May, 4:00-5:00pm

Location: 2nd Floor, North Hall,
Prague Congress Centre
